

Erwin Binner

Erwin Binner, MSc, BOKU University of Natural Resources and Life Sciences Vienna, Institute of Waste Management. Coordinator and head of the working groups “Biological treatment and organic matter” and “Experimental Waste Technology”. He has long experience in composting of biowaste (measures to enhance compost quality) and mechanical biological pretreatment and assessment of waste-reactivity by laboratory tests (Respiration Activity, Incubation Tests). Erwin is member of working groups of ONK 199 of the Austrian Standards Institute (head of working group 199.01 “methods for analyses of biogenous wastes”). Since 1999 leading the ÖWAV-working group (Austrian Water and Waste Association) „Aerobe Abfallbehandlung“ (aerobic waste treatment). Since 2005 leading the working group “HumOr” (Compost Quality) of IWWG (=International Waste Working Group). Since 2009 member of "Interessensverein MBA" (IV-MBA) and since 2012 member of ISWA-working group „Biological treatment of waste“. Since 2012 Erwin is chairman of Austrian Compost Quality Association (KGVÖ).

Erwin has presented approaching 200 papers at both national and international conferences.
