The Waste Management Symposium is jointly organised by the Waste Management and Recycling Association of Singapore (WMRAS), National Environment Agency (NEA) and International Solid Waste Association (ISWA) and supported by Singapore Workforce Development Agency (WDA).

This event will provide insights into the opportunities and trends for the waste management and recycling market in the region, and will be complemented by a discourse into more technical issues in the afternoon.

A networking lunch and an evening cocktail reception are included in the full-day programme, which will provide participants with the opportunity to exchange ideas and connect with key stakeholders in the expanding waste management market.

HEAR FROM EXPERTS
Our panel of distinguished speakers will share their wealth of knowledge, experience and insights on key areas such as:

**Market Perspectives**
- Unveiling Untapped Opportunities in Developing Countries - Vietnam, Indonesia, Malaysia and China

**Technology & Innovation**
Rapidly urbanising cities with a growing population and limited space will require innovative solutions to solve growing waste volumes, limited landfill space, and a greater need for resource recovery. This session will explore novel approaches to waste management and provide a glimpse into promising solutions and technologies in the areas of:
- Waste Collection
- Waste Sorting and Recycling
- Waste to Energy
- Smart Solutions
- Integrated Waste Management Systems

**OTHER EVENT HIGHLIGHTS**
- 3R Packaging Awards Presentation Ceremony
- Networking Lunch
- Evening Cocktail Reception
