

ISWA - Tailored Training Courses

ISWA offers bespoke training in the field of waste management specifically tailored to meet your organisation's needs. Such courses can be held at a time convenient to you at the ISWA Headquarters in Vienna, or alternatively at your own premises.

ISWA's courses cover a variety of themes in Waste Management such as:

- Collection and Transportation Technologies
- Recycling and Waste Minimisation
- Biological Treatment of Waste
- Hazardous Waste Management
- Healthcare Waste Management
- Energy Recovery
- Sustainable Landfilling
- Communication issues in waste management
- Waste Management Planning
- Financing of Waste Management
- Legal basis for Sustainable Waste Management

Why take part in an ISWA tailored training course?

- cost effectiveness
- conveniently timed courses to suit your organisations needs
- reduction in cost and travel time due to the flexibility in location
- tailored content to suit the background of trainees
- Opportunity to visit state-of-the-art waste treatment facilities
- ISWA is uniquely positioned to provide world-wide expertise
