

# SURVEY - HAZARDOUS WASTE - PRODUCTION & TREATMENT - PART 2

Part 2 of the survey intends to collect information about hazardous waste production and treatment

Please don't care about the message just below, it is a standardized message from Google

**\*Required**

1. Email address \*

---

International Solid Waste Association

## Hazardous Waste Production

2. Year of information (the most recent the best)

---

3. Total amount of hazardous waste produced for the year of reference excluding Mining Waste, E-Waste and End-of-Life Vehicles (in tons)

---

4. Amount of oily effluents or sludges produced for the year of reference (in tons)

---

5. Amount of other industrial effluent or sludges produced for the year of reference (in tons)

---

6. Amount of Acid, Alcaline or Saline waste produced for the year of reference (in tons)

---

7. Amount of other mineral waste produced for the year of reference (in tons)

---

8. Amount of used oils produced for the year of reference (in tons)

---

9. Amount of spent solvents produced for the year of reference (in tons)

---

10. Amount of hazardous waste from waste/water treatments produced for the year of reference (in tons)

---

11. Amount of waste containing PCB produced for the year of reference (in tons)

---

12. Amount of other waste containing Persistent Organic Pollutants produced for the year of reference (in tons)

---

13. Amount of mercury waste produced for the year of reference (in tons)

---

14. Amount of polluted soils produced for the year of reference (in tons)

---

15. Amount of asbestos waste produced for the year of reference (in tons)

---

16. Amount of health care waste produced for the year of reference (in tons)

---

17. Amount of batteries and accumulators produced for the year of reference (in tons)

---

18. Amount of household hazardous waste produced for the year of reference (in tons)

---

19. Amount of other hazardous waste produced for the year of reference (in tons). Please provide types and quantities.

---

---

---

---

---

20. Other comments or clarifications to provide?

---

---

---

---

---

21. Upload official figures or data base providing amount of hazardous waste produced by waste code and/or economic activity. It can be provided under several files when the info are not consolidated (excel sheet would be appreciate)

Files submitted:

22. Official websites where informations about production of hazardous waste could be found

---

---

---

---

---

23. What would you like to do? Continue to the next section or temporarily stop here and come back later. Your answers will be saved.

*Mark only one oval.*

- YES, I continue (click "Next")
- NO, I will come back to the survey later (click "Next")

### Hazardous Waste Treatment

24. Year of information (the most recent the best)

---

25. Total amount of hazardous waste treated for the year of reference excluding Mining Waste, E-Waste and End-of-Life Vehicules (in kt)

---

26. Amount of oily effluents or sludges treated for the year of reference (in tons)

---

27. Amount of other industrial effluent or sludges treated for the year of reference (in tons)

---

28. Amount of Acid, Alcaline or Saline waste treated for the year of reference (in tons)

---

29. Amount of other mineral waste treated for the year of reference (in tons)

---

30. Amount of used oils treated for the year of reference (in tons)

---

31. Amount of spent solvents treated for the year of reference (in tons)

---

32. Amount of hazardous waste from waste/water treatments treated for the year of reference (in tons)

---

33. Amount of waste containing PCB treated for the year of reference (in tons)

---

34. Amount of other waste containing Persistent Organic Pollutants treated for the year of reference (in tons)

---

35. Amount of mercury waste treated for the year of reference (in tons)

---

36. Amount of polluted soils treated for the year of reference (in tons)

---

37. Amount of asbestos waste treated for the year of reference (in tons)

---

38. Amount of health care waste treated for the year of reference (in tons)

---

39. Amount of batteries and accumulators treated for the year of reference (in tons)

---

40. Amount of household hazardous waste treated for the year of reference (in tons)

---

41. Amount of other hazardous waste treated for the year of reference (in tons). Please provide types and quantities.

---

---

---

---

---

42. Other comments or clarifications to provide?

---

---

---

---

---

43. Upload official figures or data base providing amount of hazardous waste treated by waste code and/or economic activity. It can be provided under several files when the info are not consolidated (excel sheet would be appreciate)

Files submitted:

44. Official websites where informations about treatment of hazardous waste could be found

---

---

---

---

---

45. What would you like to do? Continue to the next section or temporarily stop here and come back later. Your answers will be saved.

*Mark only one oval.*

- YES, I continue (click "Next")
- NO, I will come back to the survey later (click "Next")

### Hazardous Waste Treatment Facilities

#### Hazardous Waste Landfills

If there is no dedicated hazardous waste landfill in your country but you are aware about dumpsites where hazardous waste are disposed of, please provide this information here also.

46. Number of Hazardous Waste Landfills (HWL) in the Country

---

---

---

---

---

47. Capacity of the HWL (tons/y)

---

### Hazardous Waste Incineration

Please keep the information about dedicated incinerators to health care waste to the specific question on health care waste treatments

48. Number of Hazardous Waste Incinerators (HWI) in the Country

---

---

---

---

---

49. Capacity of the HWI (tons/y)

---

### Hazardous Waste Co-Incineration

Co-Incineration is incineration in cement or lime kilns, in combustion plants, in blast furnace, ...

50. Number of Hazardous Waste Co-Incineration (HWCI) in the Country

---

---

---

---

---

51. Capacity of the HWCI (tons/y)

---

### Hazardous Waste Physico-Chemical Treatment

Physico-Chemical Treatments are for instance: water-based liquid waste treatments (neutralisation, detoxication, flocculation, ...) or mixing of mineral residues with cement prior to landfilling, etc

52. Number of Hazardous Waste Physico-Chemical Treatment plants (HWPCT) in the Country

---

---

---

---

---

53. Capacity of the HWPCT (tons/y)

---

**Spent Solvent Recovery**

54. Number of Spent Solvent Recovery Facilities (SSRF) in the Country

---

---

---

---

---

55. Capacity of the SSRF (tons/y)

---

**Used Lubricant Oils Regeneration**

56. Number of Used Lubricant Oils Regeneration Facilities (ULORF) in the Country

---

---

---

---

---

57. Capacity of the ULORF (tons/y)

---

**Health Care Waste Treatments**

58. Number and type of Health Care Waste treatment Facilities (HCWTF) in the Country

---

---

---

---

---

59. Capacity of the HCWTF (tons/y)

---

**POP Waste Treatments**

60. Number and type of POP Waste treatment Facilities (POPWTF) in the Country

---

---

---

---

---

61. Capacity of the POPWTF (tons/y)

---

**Mercury Waste Treatments**

62. Number and type of Mercury Waste treatment Facilities (MWTF) in the Country

---

---

---

---

---

63. Capacity of the MWTF (tons/y)

---

64. Other treatments available? Please provide information about the type of treatment and the capacities.

---

---

---

---

---

65. Are you aware of big contamination incident/hot spot/legacy waste sites in your country which would require special care in terms of decontamination?

---

---

---

---

---

66. What would you like to do? Continue to the next section or temporarily stop here and come back later. Your answers will be saved.

*Mark only one oval.*

- YES, I continue (click "Next")
- NO, I will come back to the survey later (click "Next")

### Hazardous Waste imports & exports

67. Year of information (the most recent the best)

---

68. Quantity of hazardous waste exported for the year of reference (tons). If you have more detailed information, please summarize it here also

---

---

---

---

---

69. Quantity of hazardous waste imported for the year of reference (tons). If you have more detailed information, please summarize it here also

---

---

---

---

---

70. Upload official figures or data base providing amount of hazardous waste exported/imported. It can be provided under several files when the information are not consolidated (excel sheet would be appreciate)

Files submitted:

71. Official websites where information about export/import could be found

---

---

---

---

---

---
