MEMBER TESTIMONIALS

“ISWA has been important to me because I needed to exchange with colleagues from other countries who work with were dealing with the same kind of policy and legislation, Municipal Waste Europe did not exist then.”

Maarten Goorhuis
NVRD, Netherlands
(National Member)

“CIWM is the National Member for the UK and I felt that being an eMember, helped with my contribution to working groups and the liaison with CIWM’s own Technical Communities. Having access to a wider network assisted my role within CIWM – helping our members with queries and information.”

Tina Benfield
CIWM, UK
(National Member)

“Since joining ISWA in 2007, WMAM’s became the main focal platform for waste management matters in Malaysia. It has provided me with focussed networking with waste management knowledge experts and technology providers around the world. The ISWA World Congresses, Beacon Conferences and Working Group Sessions are second to none.”

De Leong Ho
Waste Management Association of Malaysia
(National Member)

“ISWA is the best place to change experiences with great people from all around the world.”

Christophe Cord'Homme
CNIM, France
(Gold Member)

“My ISWA journey started in 2002, and I could not imagine how much my volunteering in this association would mark my professional and personal life. I found knowledge, contacts and solutions to problems. But I also found friends, purpose and a worldview that made me understand my role on this planet.”

Ana Loureiro
EGF / ISWA
(National Member)

“I entered the waste management in early 2000s, and aimed to develop and expand my qualifications and experience. I initially became a member of CIWM in the UK, and shortly afterwards ISWA launched its “International Waste Manager” programme and I became one of the first people to obtain this qualification. I maintain ISWA membership in order to retain this qualification, however, over the years I have also enjoyed participating in the ISWA European Group meetings, and for the past few years being the Vice-Chair of the WG Collection & Transportation Technologies.”

Ian Dudding
Dover District Council, UK
(Digital Member)

“I have no doubt that my work with ISWA increased my attractiveness as an employee and allowed me to accelerate my career, furthermore the chance to practice my leadership skills taught me valuable lessons which I continue to use on a daily basis.”

Roland Thompson
Crykl, Spain
(YPG Chair)
