

ISWA @ IFAT Munich 2024

*Practitioner's Guide
to Preventing and
Managing
Contaminants in
Organic Waste*

Title: Introducing the "Practitioner's Guide to Preventing and Managing Contaminants in Organic Waste Recycling"

When

Day: Wednesday, 15 May 2024

Time: 15:00 – 16:00 PM

Venue: ISWA Booth, Hall A5, Booth 238

Summary

Join us for an insightful session presenting the "Practitioner's Guide to Preventing and Managing Contaminants in Organic Waste Recycling" report produced by the ISWA Working Group on Biological Treatment of Waste.

Speakers

Marco Ricci, Vice-Chair of WGBTW, ISWA

Context

In response to the evolving challenges in waste management, the Biological Treatment Working Group introduced the "Practitioner's Guide to Preventing and Managing Contaminants in Organic Waste Recycling" in October 2023. Tailored for waste practitioners, this comprehensive guide aims to assist in planning and executing effective organic waste recycling programs. By delving into the sources, types, and consequences of contamination, the guide aims to raise awareness and advocate strategies for prevention and mitigation.

Join us for an insightful session disclosing the content of this pivotal report with one of the principal authors and gain valuable knowledge on how this guide can significantly benefit the organics recycling sector.

Location

This session will be hosted at the ISWA Booth.

ISWA Booth and the Orange Stage are both located in Hall, please see below the highlighted bits on where to find us.

Speaker Bios

Marco Ricci

Chair Working Group Biological Treatment of Waste (ISWA)

Marco has almost 30 years Experience in planning MSW management, designing and up-grading of collection and transport schemes, assessing recycling facilities (focus on composting), planning communication and participation initiatives, chairing multi-linguistic, multi-tasking working groups or projects. He has 20 year foreign working experience as consulting expert focusing on issues related to solid waste management. Extensive consultancy experience in the Solid Waste Sector – on Strategy and Policy, Fees & Taxes, Separate collection schemes - , both in ‘advanced’ and ‘low to middle income’ countries in Europe, Latin America and Asia. Currently he works both as a private consultant in Italy, Latin America and other foreign countries also for international organisations such as FAO, CCAC, World Bank and others; he is a Senior Expert at (C.I.C.) the Italian Composting and Biogas Association and member of Ecomondo's international STC.
